

The V3 Diesel pump is ideal for applications that require volumes of liquid screed, self-leveling, and shotcrete.

Robust and powerful machine with high performance

Large 200 L hopper and vibrating sieve with vibrator to facilitate product entry into the hopper

Practical and easy to transport, road towable 750kg weight

Jacket and rotor 60/12, For continuous pumping of materials. with a particle size of up to 12 mm.

The V3 can be equipped with remote control and pressure washer according to each customer and their needs.

MORTER V3

DATA SHEET

MODEL	V3
ENGIN	Diesel stage V
Power	19 Kw
Pumping distance	150 Mts
Pumping height	60 Mts
Max granulometry	8 mm
Pumping pressure	Up to 30 bar
Loading height	810 MM
Hopper capacity	220 L
Mixing capacity	Without
Dimensions	3300X1150X1200
Weight	750 KG
Stator	2L6 ; 60/12
